Online Cleaning Tool

Category: Cleaning & Grinding Equipment

The Online Cleaning Tool (OCT) is designed for high-pressure waterjet cleaning of pipework interiors while maintaining continuous production, enabling maintenance to be performed without operational downtime.

The OCT bolts directly to valve and pipe flanges and can be used with various cleaning tools for effectively removing internal deposits and obstructions (cleaning lance shown).

The sealing mechanism contains the steam, water and process fluids during operation, minimising operator exposure and providing a safe, controlled cleaning process.

Features

- Permanent or intermittent installations
- Manual or automated operation
- Multiple isolation valves

Specifications

Dimensions (mm)	925 (L) x 625 (W) x 470 (H)
Mounting Flange Diameter	~Ø300 mm
Max. Process Void Pressure	1.3 bar (19 psi)
Max. Process Void Temperature	125°C
Design pH Range	2 to 14
