Mini AXE

Category: Cutting Equipment

The Mini AXE delivers internal pipe cutting in shallow water depths and is ideal for cutting structures such as piles and conductors.

Hydraulically actuated centralisers securely lock the tool in position, ensuring exceptional stability and cutting accuracy.

The hydraulically driven cutting head combines a powerful jet of high-pressure water with abrasive grit to deliver fast, repeatable cutting performance.

The compact control stand design enables deployment of the system in confined spaces.

Features

- Proven to cut 25 mm Grade 350 carbon steel (or equivalent) in one pass
- Top mounted rotation indicator
- Extendable legs to secure Mini AXE in position
- Variable cutting speed to suit individual applications

Specifications

Dimensions (mm)	1255 (H) x 440 (W) x Ø300
Weight in Air (Mini Axe)	60 kg
Weight in Seawater	45 kg
Max. Operating Pressure (Cutting Water)	4,140 bar (60K)
Max. Cutting Speed (material dependent)	26 min/rev
Min. Cutting Diameter	550 mm
Max. Cutting Diameter	Adjustable to requirements
